Systems, Inc Announces the Purchase of a New Facility

FOR IMMEDIATE RELEASE
Wednesday, March 25, 2015

Germantown, WI – Systems Inc., headquartered in Germantown, Wisconsin, is pleased to announce the purchase of a new facility for our DLM[®] Division in Malvern, Arkansas. This announcement is part of a planned investment in excess of 5 million dollars in the State of Arkansas (City of Malvern) by Systems Inc. Systems' is a leading manufacturer of loading dock equipment for the trucking and warehouse industry with established brands such as DLM[®], Poweramp[®] and McGuire[®]. The 136,000 square foot plant is located in the city of Malvern and previously owned by the Kohler Company. The move will bring all of the DLM employees under one roof and provide expanded space for production growth and future job creation.

The expanded facility will dramatically increase local production and manufacturing efficiencies, enhance product quality and reduce material handling costs. Systems' ongoing commitment to the environment and sustainability will be further advanced by increased investment in a "state of the art" environmentally friendly paint and air handling system.

During the past several years Systems, Inc. has invested heavily in new processes and product development. As a result of increased demand for our products both domestic and internationally, additional production space is required. DLM[®] will begin immediately adding jobs in both production and customer support positions. The expected job creation includes but is not limited to the following full and part time positions:

- Human Resources
- Technical Services
- Engineering
- Customer Service
- Maintenance
- Robot Operators
- Welders
- Assemblers

DLM has been part of the Malvern/Hot Spring County community for over forty years and we look forward to being part of the community for many more.

Systems, Inc. corporate headquarters is located in Germantown, WI, with manufacturing facilities in Germantown, WI and Malvern, AR and employs over 200 people. The company's 50 year history demonstrates its success in the industry and its commitment to safety, quality, innovation, and customer satisfaction.
